Tech Lead / Lead Software Engineer

Profile

I am a software engineer with 18 years of experience building tech solutions across several industries and a strong entrepreneurial focus. I am equally comfortable with hands-on delivery (i.e. writing code) and managing engineering teams (i.e. helping other developers write code). I help organisations embrace new technologies to solve challenging real-world problems and launch successful products that customers love.

Work experience

Principal Software Engineer for a digital production studio

Motif, London, United Kingdom – October 2023 until now (motifgroup.co)

→ *Responsible for an API-as-a-product and client applications and infrastructures.*

Scoping, designing and building client web applications and starting a greenfield API-as-a-product focusing on intelligent packaging. Defining ways of working & software development lifecycle.

Technology: AWS, API design, TypeScript, Node.js, Serverless (Lambda), CDK, Docker, MySQL, Prisma, Redis.

Senior Software Engineer (contract-based), Remote / London, UK - Jul. to Sep. 2023

→ **Flowtrace**, UK-based company metrics tool provider – Feb. to Sep. 2023 (flowtrace.co)

Building new third-party data provider integrations for feeding into the core SaaS tool.

→ **Bulb Energy**, UK-based green energy provider – Mar. to Nov. 2022 (bulb.co.uk) via [YLD.io](https://yld.io)

Building new comms features for rolling out electric smart meter installations across the business.

→ **ApprenticeFS**, US-based life sciences startup – Sep. 2021 to Dec. 2021 (apprentice.io)

Building new features for an intelligent pharmaceutical manufacturing execution system SaaS platform.

→ **Condé Nast**, global publishing house – Mar. to Sep. 2021 (condenast.com) via [YLD.io](https://yld.io)

Building an internal API & validation library for content migration of 50 publications to a new tech stack.

→ **Progressive Content**, marketing agency - Sep. 2020 to Feb. 2021 (progressivecontent.com)

Building a microservices backend for a UK-based banking client's content marketing CMS.

→ **AND Digital**, software consultancy – Jul. 2019 to Apr. 2020 (and.digital)

Leading a development team of 5 members in a cloud transformation project for a UK insurance client.

Technology: Node.js, Serverless, TypeScript, GraphQL, React, Docker, Kubernetes, DynamoDB, Elasticsearch, Github Actions, AWS, GCP, Azure, Terraform

Head of Engineering / Tech Lead for a health-tech startup

Skin Analytics, London, United Kingdom – October 2017 to May 2019 (skin-analytics.com)

→ *Responsible for an API-as-a-product, internal and commercial applications and infrastructures.*

Leading technical team (8 members between UK and Poland). Managing infrastructure. Day-to-day management, code reviews and testing. Delivered a Software as a Medical Device commercial API.

Technology: AWS, Node.js, Serverless (Lambda), TypeScript, React, MySQL, MongoDB, Docker, Ansible.

Mentoring, since 2017

Since 2024 - [MentorCruise](https://mentorcruise.com): Mentoring about system design, software engineering, career orientation & more.

Since 2023 - [GDG Academy program](https://gdg.academy): Mentoring students in various UK universities.

2017-22 - [Open Classrooms](https://openclassrooms.com): Tutoring for the tech lead curriculum for a french online education platform.

Technical Lead for an international online media publishing group

Jamie Oliver, London, United Kingdom – February to September 2017 (jamieoliver.com)

Managing 3 contractors. Lead a migration from a legacy SOAP CRM to a microservices architecture.

Technology: AWS, Node.js, TypeScript, PHP (Laravel), RESTful APIs, Redis, Solr, Vue.js, WordPress, Varnish.

Team Leader / Technology Manager for an international NGO

Internews London, United Kingdom – April 2015 to December 2016 (internews.org)

→ *Leading the design, development, and delivery of innovation and technology components*

Working with a multidisciplinary team supporting local startups among the most repressive regimes. Leading in delivering news publishing apps. Managing activities' budgets. Speaking at conferences and events.

→ *Managing technology team and resources across multiple projects (8 countries)*

Overseeing the recruitment and day-to-day managing a team of 5 technologists. Ensuring planning, setting priorities, and agreeing on detailed work plans, budgets, and schedules. Coaching and mentoring team members. Agile delivery. Responsible for technical architecture and roadmap.

Technology: Node.js, PHP (Laravel), WordPress, Drupal (7/8), Ansible, Nginx, OpenVPN, encryption.

Web Application Engineer for an international NGO

Internews Paris, France / London, United Kingdom - Mar. 2009 to Mar. 2015 (internews.org)

Designing, developing & supporting multilingual web applications and custom modules. Integration with social network (Twitter, Facebook) APIs. Writing documentation for users. Deployment and monitoring of secure hosting & video platforms. Facilitating training: website building and digital security (West Africa, MENA).

Technology: Drupal, WordPress, PHP (OOP, MVC), MySQL, Solr, AWS, Vagrant, Nginx, Linux administration
