Tech Lead / Lead Software Engineer

Profile

I am a software engineer with 15 years of experience building tech solutions across several industries with a strong entrepreneurial focus. I am equally comfortable with hands-on delivery (i.e. writing code) and managing engineering teams (i.e. helping other developers write code). I help organisations embrace new technologies to solve challenging real-world problems and launch successful products that customers love.

Work experience

Principal Software Engineer for a digital production studio

Motif, London, United Kingdom – October 2023 until now (<https://motifgroup.co>)

→ *Responsible for an API-as-a-product and client applications and infrastructures.*

Scoping, designing and building large scale web applications for various clients as well as starting a greenfield API-as-a-product focusing on large B2B clients. Defining ways of working, implementing development & delivering lifecycle.

Technology: API design, TypeScript, Node.js, Serverless (Lambda/SAM), CDK, AWS, Docker, MySQL, Redis.
